

ADAMA

Veritas® Opti

You'll see the difference
where it counts.

Veritas Opti (222 g/L azoxystrobin + 370 g/L tebuconazole)	Veritas (120 g/L azoxystrobin + 200 g/L tebuconazole)
Application rate (mL/ha)	
170	315
340	630
400	750
540	1000

New concentrated formulation!

Veritas Opti fungicide
contains 85% more
active ingredients than
Veritas for greater
convenience and
reduced waste.

- Broad spectrum foliar fungicide for use in wheat, barley, pulses and canola (including sclerotinia)
- *New registered claims for upper canopy blackleg in canola and black spot in field peas!*
- Two powerful modes of action (Group 3/11) for improved disease control and resistance management
- Persistent protectant and systemic activity
- Cost-effective solution to maximise quality and yield potential
