

# PYRINEX QUICK

PYRINEX QUICK is an insecticide with a unique micro-encapsulated formulation for effective control of Russian Aphids and other cereal insects on wheat

ADAMA

Russian Wheat Aphid

PYRINEX QUICK is a combination of two different molecules and therefore has efficient activity against a wide spectrum of pests

1 PRODUCT + 2 MODES OF ACTION = EXCELLENT, QUICK AND LONG LASTING ACTIVITY DUE TO ITS **UNIQUE MICRO-ENCAPSULATED FORMULATION** AGAINST MANY PESTS

## BENEFITS FOR THE FARMER:

- ✓ Excellent Knock-down effect – within a few hours the pests stop feeding on your crop
- 👍 Your crop is protected for a long period due to the strong residual effect. The capsules are carried by insects and transferred to other insects in their nests
- 🔄 PYRINEX QUICK can be used against different pests due to its broad spectrum activity
- ☁️ Rain fast- The product is absorbed in the plant within a few hours
- 🌿 Safe for your crop

## DIRECTIONS FOR USE:

Mixing instructions: Shake well before use. To prepare a spray solution, half-fill the spray tank with clean water. Pour the required quantity of Pyrinex Quick into the spray tank; Gently agitate the machine. Fill the spray tank with water to the required level while agitating continuously. Application- Pyrinex Quick can be applied by means of any suitable knapsack sprayer (including motorized) which is able to distribute the spray solution evenly and effectively over the target area.

## APPLICATION RATES:

CROP	RATES	APPLICATION RATE	PRE-HARVEST INTERVAL
Wheat	Russian Aphid	1.25L/Ha, 25ml/20L water	14 Days

**Always read the label carefully before use**
