

## Premain®

Chlorpyriphos 20% EC

- ▶ **Premain** is an organophosphorous insecticide effective against a broad range of insects by contact, ingestion and vapour action. It has little systemic activity, and is non-phytotoxic when applied at recommended dosages on recommended crops.
- ▶ **Premain** persists in soil for two to four months, and is compatible with most insecticide fungicides and acaricides.

**Available Pack sizes:**  
100ml, 250ml, 500ml, 1ltr, 5ltr

**Antidote:**  
Atropinize the patient immediately and maintain full atropinization.
