

INSECTICIDE

Cohigan®

Imidacloprid 17.8% SL

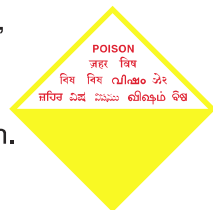

- ▶ **Cohigan** is a neonicotinoid insecticide with contact and stomach action.
- ▶ **Cohigan** is highly systemic and acts on the central nervous system and has long residual activity. The mode of application (foliar spray, soil application, seed treatment etc) directly influences the product's knock down ability and time to control the target pest population.
- ▶ **Cohigan** is effective against a wide range of foliar pests via its systemic activity and specifically control sucking insects.

Available Pack sizes: 50ml, 100ml, 250ml, 500ml, 1ltr

Antidote:

No specific antidote is known.
Treat symptomatically.
