Pedestal Supra™

Effective kill... Possible only with Pedestal...

Pedestal Supra™

Novaluron 8.8% SC

- ▶ **Pedestal Supra** based on the active ingredient novaluron, is a novel insecticide belongs to the benzoylphenylurea group.
- ▶ **Pedestal Supra** active against larvae of insects of the orders lepidoptera, coleopteran, homoptera and diptera. It acts by inhibiting chitin formation during moulting.
- ▶ **Pedestal Supra** acts mainly by ingestion, but has shown some contact activity. It does not have ovicidal activity, but a high percentage of mortality of first instar hatching from eggs laid on sprayed foliage occurs. It also suppresses fecundity.
- ▶ **Pedestal Supra** was found safe to major beneficial insects and may be used as a component in integrated pest management (IPM). In India, it was found to be the best product for *spodoptera* control in many crops.

Available Pack sizes: 50ml, 100ml, 250ml, 500ml, 1ltr

Antidote:

No specific antidote is available, Treat symptomatically & give supportive therapy
