(Formerly known as Makhteshim-Agan India Private Limited)

Presents

Tapuz[®]

**Innovative and
Simple Management
Solution for
Sucking Pests**

Put up a **Tapuz** flag &
save the crop from sucking pests

"CHECKS" the build-up of **"SUCKING PESTS"**

INSECTICIDE

Tapuz®

Buprofezin 15% + Acephate 35% WP

- ▶ **Tapuz** is a unique combination product with two different modes of action.
- ▶ **Tapuz** acts as an insect growth regulator (inhibits moulting) and also simultaneously affects the nervous system of the insect by inhibiting the transmission of messages through disruption of acetyl choline (leads to paralysis and death).
- ▶ **Tapuz** as an early season spray can serve as a quicker, long-lasting & effective tool for BPH & WBPH management in rice.

Available Pack sizes:
100g, 250g, 500g, 1kg

Antidote:
No specific antidote.
Treat symptomatically
