

MIRAGE®

PROTECTING YIELD AND GRAIN QUALITY AT T3

As T3 approaches growers and agronomists should consider Mirage as a component in the mix at this timing to protect yield and grain quality. Here are 4 key reasons to consider Mirage;

- **Ideal tank mixing partner for tebuconazole** to provide the complete T3 solution
- **Mirage® adds Microdochium control** and improves Fusarium protection
- **Mirage® improves Septoria protection** as prochloraz remains active against Septoria strains highly insensitive to other azoles
- **Protects flag leaf,** ear and yield/grain quality
